ProLock

ProLock™

Scalable Locker Solution

This access-controlled, flexible locker solution allows you to manage the distribution of both consumable items and valuable assets such as returnable hand tools and power tools. The ProLock includes individual lockers with configurable shelves so it can easily be customized on site. The ProLock allows for different combinations of locker sizes to expand for larger items and includes the ability to control access to specific lockers.
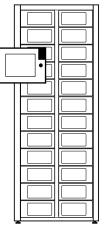

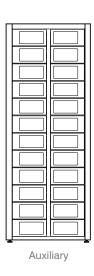

- Improve operational efficiencies
- Manage serial IDs, kits, and expendables
- Monitor calibrated items and schedules

ProLock Configurations

The ProLock locker solution is available in the standard 24-door and 12-door models and the compact 20-door model. The ProLock is field-configurable by simply linking the doors of each of locker together and removing shelves. This allows the capability to lock multiple doors at once. The ProLock can be a main or auxiliary unit.
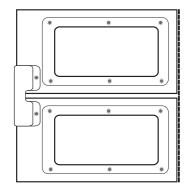

Standard   Auxiliary   Compact

ProLock Lockers

Linked Locker Dimensions

Lockers	1	2	3
Height (in)	5.06	11.19	17.31
Height (cm)	12.86	28.42	43.97
